

Mr. Fred Knops

Mr. Knops is a Senior Vice President within Booz Allen Hamilton's Technology Team, which includes over 5,000 IT strategy, systems development, IT infrastructure, SE&I, and cyber-security professionals. Fred has worked at Booz Allen since 1989, and during his tenure there has served clients in the United States, Europe, and Latin America, in various industries including telecommunications, financial services, and energy, and government clients in Trade, Defense, and Homeland Security.

Currently, Fred focuses his time on the Department of Homeland Security, with a specific emphasis on their Headquarters operations and Emergency Response organizations. He is also one of the firm's Senior Vice Presidents leading Booz Allen's Center of Excellence for Strategic Technology and Innovation.

A native of North Carolina, Fred received his Bachelors degree in Math and Physics from the University of North Carolina at Chapel Hill, a Masters Degree in Aerospace Engineering from the University of Michigan, and an MBA from George Washington University.
