

Steve Winterfeld

Steve Winterfeld has a strong technical and leadership background in Cyber Security, System Certification & Accreditation (C&A), Training, Military Intelligence, Simulations and Project Management. Currently he is the technical lead for building the TASC Cybersecurity Practice and the PM for the TASC research labs (TERANet - 10 labs located across the country). He is also the lead for the Vulnerability Assessment and Penetration Test Team and the primary instructor for the Cyber Warrior Course on hacker mentality & methodology. Previously he built the Computer Emergency Response Center for US Army South responsible for monitoring security real time and conducting forensic investigations on intrusions. He also produced the first Global Hawk Unmanned Aerial System (UAS) C&A approval. He holds CISSP, PMP, SANS GSEC, Six Sigma certifications and has a MS in Computer Information Systems.
